**BACKGROUND/DISCUSSION:**

On November 13, 2012, the City Council voted in favor of the creation of the Beautification Advisory Committee (BAC). The purpose of the BAC is to serve in an advisory capacity to the Director of Public Works to implement and sustain the Beautification Task Force Plan.

On May 13, 2013 the City Council Adopted "A Resolution Providing for Appointments, Terms, Reporting and Reorganization Requirements for Commission and Committees". The said resolution requires all commissions and committees to submit annual reports to the Council which summarizes the Committees' work and accomplishments for the past year.

The Beautification Advisory Committee (BAC) is comprised of 7 members of the community and is charged with the implementation of the Keep Pacifica Beautiful (KPB) program as part of the Beautification Plan.

The BAC, through its chair, Dave Martinez, compiled and wrote the committee's Annual Report for FY16-17 which summarizes the functions of the committee and highlights its accomplishments during calendar year 2016 and 2017 to date.

**FISCAL IMPACT:**

None.
